**Recommendation Letter for Mr. Mainul Islam Rayhan**

It is my pleasure to recommend Mr. Mainul Islam Rayhan, a former student of mine in the Department of Business Administration, major in Management Information Systems, at Shahjalal University of Science and Technology (SUST), for admission to your master's program. I have taught him in several courses, and I have closely observed his academic performance, research interests, and extracurricular engagements.

In my classes, Mr. Rayhan consistently ranked among the most attentive and engaged students. He approached new topics with genuine curiosity, asked thoughtful questions, and often drew connections between theoretical lessons and real-world applications. With a final **CGPA of 3.58/4.00**, he demonstrated his ability to excel in demanding subjects, particularly those related to data-driven decision-making and information systems analysis.

What distinguishes Mr. Rayhan is his commitment to intellectual growth beyond the standard curriculum. He proactively developed his technical expertise by earning the **IBM Data Science Professional Certificate** and additional qualifications in Python, SQL, and data analysis. Moreover, he demonstrated early maturity in research by working under a professor of the department. His paper, **"Addressing Sustainability through IoT and Big Data Analytics in Tertiary Industry: A Literature Review and Bibliometric Analysis to Explore Future Avenues"** reflects both his analytical rigor and his ambition for scholarly inquiry—qualities that are not commonly found at the undergraduate level.

Beyond academics, Mr. Rayhan has impressed me with his leadership and organizational skills. As **Captain of the SUST Badminton Team**, he led his peers with discipline and determination, guiding the team to the semi-finals of the Inter-University Tournament. In addition, his role as **Campus Ambassador for the Ministry of Youth & Sports of Bangladesh** illustrates his strong communication and teamwork skills, as well as his ability to take initiative and balance responsibilities effectively.

I believe that Mr. Rayhan possesses the academic foundation, research aptitude, and interpersonal qualities to succeed in your program and contribute meaningfully to your academic community. I strongly recommend him for admission to your master's program without reservation.

*Zillur Rahman* 01.10.2025

Dr. Md. Zillur Rahman

Associate Professor

Department of Business Administration
